

Interior and Exterior Application

Although there are many varied and contradictory standards in Australia and through-out the world, Latham strive where possible to meet these and are constantly updating our range to address the sometimes unforeseen and unexplained changes to various Standards.

In relation to the updated standard AS 1428.1-2009, these profiles meet the width and depth requirements set out in this standard. It should be noted however that when an aluminium or brass nosing with a deeper bullnose is required a number of certifiers have claimed that as the vertical face strip of the nosing is a different colour and as such may apply. This would need to be clarified with the relevant parties.

- 1 Asbraloy ACS-50 AS1428.1-2009 Compliant (sparkling black-standard infill)
- 2 Asbraloy 493S AS1428.1-2009 Compliant (blue grey)
- 3 Asbraloy FA501S AS1428.1-2009 Compliant (off white 50mm abrasive strip)
- 4 Asbraloy FA711ST AS1428.1-2009 Compliant (off white 50mm abrasive strip)
- 5 Asbrabronz BFA731ST AS1428.1-2009 Compliant (silver grey 50mm abrasive strip)
- 6 Asbraloy 733VT AS1428.1-2009 Compliant (sparkling black)
- 7 Asbrabronz B733VT AS1428.1-2009 Compliant (teak)
- 8 Asbraloy 734ST AS1428.1-2009 Compliant (off white)
- 9 Asbrabronz B734ST AS1428.1-2009 Compliant (terracotta)
