

# Latham Car Joint Series Aluminium Expansion Joint Cover RTJ-1

Illustrated: RTJ-1

Aluminium Code	A	B	C	Movement	Total Available Movement
RTJ-1	25	45	300	+/-25mm	50mm

## FEATURES

- Aluminium waterproof floor expansion joint cover designed for car parks, driveways and roofs.
- Reinforced elastomeric system designed to allow an expansion joint to open or close without creating tension or other stresses.
- Aluminium cover plate acts as a speed hump, whilst protecting the elastomeric system from UV attack, physical damage and eliminating any stress to the adhesion and cohesion of the components.
- Can be installed over existing sealant materials, saving cost of removal.

## MATERIALS

- 6mm thick aluminium 6063-T5 mill finish alloy (custom modified systems with 6, 8, 10, 12 or 15mm structural steel for heavier applications available).
- Con proof reinforced elastomeric.

- Supplied in 2400mm lengths.

## FIXINGS

- Cover plate factory drilled to accept 10mm fasteners at ~500mm centres.
- Slabs should form a fall from both sides of the joint to eliminate ponding.
- Crossovers, Tees and Angles can be factory manufactured.
